

## AAPG BULLETIN

## INDEX OF VOLUME 69 (1985)

The format of the 1985 *Bulletin* Index consists of only one index of titles, authors, and keywords. The 1985 reviews of recent publications are included for the seventh time in our computer indexing (which began in 1965). The memorials are now included (for the fourth time).

The left-hand columns are: BA = *Bulletin Abstract*; BU = *Bulletin*; 6901 = volume 69, no. 1, etc.; and the page numbers. Code symbols used are:

T = phrase from title  
A = author  
K = keyword

This index does not show multiple authors in any single listing. Each author is listed separately.

Note: Only single-line entries are used. Where title entry is inverted, a comma appears before each keyword in that entry.

## AAPG BULLETIN

## INDEX OF VOLUME 69 (1985)

The format of the 1985 *Bulletin* Index consists of only one index of titles, authors, and keywords. The 1985 reviews of recent publications are included for the seventh time in our computer indexing (which began in 1965). The memorials are now included (for the fourth time).

The left-hand columns are: BA = *Bulletin Abstract*; BU = *Bulletin*; 6901 = volume 69, no. 1, etc.; and the page numbers. Code symbols used are:

T = phrase from title  
A = author  
K = keyword

This index does not show multiple authors in any single listing. Each author is listed separately.

Note: Only single-line entries are used. Where title entry is inverted, a comma appears before each keyword in that entry.
